## INSTALLATION REQUIREMENTS:

Base of fan must be secured to floor using three 3/8"-7/16" lag screws for wood floor applications or 3/8"-7/16" lag bolt/ lag shields for concrete floor applications. Lag screws, lag bolts and lag shields included.

## ELECTRICAL REQUIREMENTS:

Requires a grounded electrical supply line of 120 volts AC, 60 Hz, 15 amp circuit with ground fault protection. 12 ft power cord with 3-prong plug is included. Can be hard-wired directly to "weather-tight" junction box.

## MOTOR SPECS:

188 x 25 motor is designed for optimal performance with this fan. 220 VAC, 50 Hz export version available (aged bronze finish).

## FAN SPEED:

3-speed pull-chain with reversing switch (on the motor). Approximate speeds (depending on blade selection)  
High—145 rpm; Med—95 rpm; Low—60 rpm;

## BLADES:

All-weather composite, palm, bamboo, and wood blade sets are available—sold separately. See our catalog or visit [www.fanimation.com](http://www.fanimation.com) for blade options.

## LOCATION USE:

Fan is rated for dry, damp and wet locations.
