

KELVIN T ADJ CLAMP

Mounting	: Clamp
Lamps description	: 1 x MAX 40W G9 HSGS/F
Environment	: Indoor
Finish	: Aluminum, Black
Technical description	: Adjustable table lamp providing direct light, with pantograph arm and adjustable head. Die-cast aluminum alloy reflector, painted matte white inside with an injection-molded transparent or black polycarbonate outer head. Extruded aluminum alloy square tub transparent or black polycarbonate outer head. Extruded aluminum alloy square tube (12x12mm) structure, machined, polished and protected with transparent or black liquid paint. It houses a stainless steel load-compensation spring and injection-molded acetal resin sliding blocks. 3 mm diameter wire outer tie rods. CLAMP is hand-polished, die-cast aluminum alloy protected with transparent or polished black liquid paint.

ELECTRICAL

Emergency	: Without
Switching	: ON/OFF through switch located on the transparent electric wire with molded plug
Voltage (V)	: 220/240

PHYSICAL

Supply	: Power cord
Cord length(mm)	: 1500
Construction material	: Aluminum or Polycarbonate
Weight (kg)	: 1,2
Minimum distance from illuminated object (mm)	: 200

Kelvin T ADJ Clamp
