

Bruna Parede

shown in Brushed Nickel with metal blades and decorative cage

Safety cages available for low ceilings.

Suitable for Damp Location

U.S.A. Components and Labor

The blades of the Brunna Parede wall mounted fan can be infinitely positioned vertically and horizontally across 180-degree arcs to provide maximum directional airflow. It can be mounted in small, awkward spaces or in front of HVAC ducts to make more efficient the heating, ventilation or air conditioning of any room. The Brunna is available in polished chrome, brushed nickel, polished copper, bronze or black. White, brushed copper, polished brass, brushed brass, black nickel and bronzette are available as special orders. Bronzette, incidentally, is our monochromatic powder-coated bronze finish.

- Constructed of cast aluminum, heavy spun and stamped steel, the Brunna carries a limited lifetime warranty.
- The Brunna is equipped with hand-balanced metal blades with metal safety cages.
- All metal bladed fans are Damp Location rated if ordered with protective powder or clear coatings.
